Web Site Puts Soldiers in Contact with Donors

Jul. 27, 2005

(KSL News) -- A new website makes it easier for US troops overseas to receive packages from home.

AnySoldier.com allows troops in combat zones to post addresses and list specific needs. Then anyone can search the database online by name, location or wish list items.

For example, if you have a fan to donate, you can find a soldier who needs one, pay the postage, and within a few weeks that fan will be in the soldier's quarters.

Marty Horn, Any Soldier, Inc.: "A lot of these folks aren't supported. Either their families can't or they don't have families or whatever. There's always somebody out there that could use your help."
